Applicants have shown that other cleavage domains than that of *FokI* can be used in the instant invention, have successfully pointed out to the examiner where it is disclosed that nuclear localization signals are present in the chimeric nuclease disclosed in the specification and amended the claims previously rejected under 35 USC § 103(a) to include a requirement for nuclear localization signals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
